Expect The UnExpected...

Step inside and be pleasantly surprised, this single level street facing villa unit, has been distinctively designed around a spectacular backyard that offers the freedom to entertain in style.

The eye is immediately drawn out through glass bi-fold doors from the living and bedrooms that all lead out to a spectacular outdoor retreat that is surprisingly private and large. Contemporary lines, high ceilings and loads of natural light, flow through the generous open living and dining area that perfectly adjoins a well planned kitchen that allows direct access from the auto garage. A smart floorplan nicely separates robed bedrooms and bathroom from living areas and a cleverly created separate study. Extra comforts include a soaker's bath tub, split system heating /cooling units, 2nd car park option in front of garage and hidden rain water tank.

Type : Villa
