Set Yourself Free & Enjoy The Lifestyle...

Nestled securely behind the historic bluestone walls of 'Pentridge Village' is this terrific tri-level residence that provides a practical floor plan with an accent for entertaining while providing low maintenance living.

On the first floor, the hostess kitchen overlooks the relaxed dining area and is complimented by Caesar Stone bench tops and stainless steel appliances while the separate living area leads out to a private balcony. The second floor includes two generous sized bedrooms each with their own ensuite bathroom & master with WIR. Additional benefits include secure entry, guest powder room, separate laundry and secure garage with remote control.

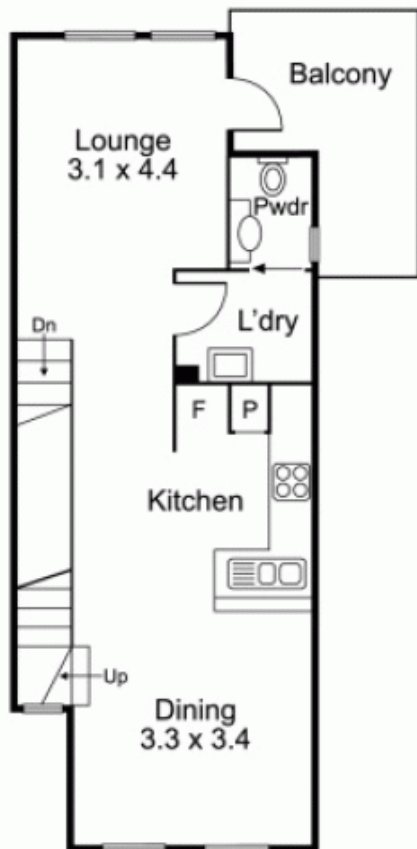

All this, ideally located in close proximity to Lake Reserve, Merri Creek walking/cycling track and the Coburg Drive Ins.

Whether you are looking for a rewarding investment or the perfect place to call home then the search ends here.
