So Cool...

Let's begin with the drive through Melbourne's most creative street, a feeling that you're in New York with a mix of cool warehouse conversions, then the location, just around the corner to Melbourne's most cool and convenient streets Smith or Gertrude and the apartment that follows the trends outside from the building entrance to inside its light filled interior that is just so cool.

You will be impressed upon entering a entrance hallway that proceeds you through a hard to beat floorplan that offers: A totally private bedroom, stylish separate bathroom with hidden laundry and open plan living with easy to like kitchen and polished concrete floors that opens out onto a really cool private terrace that allows you to entertain in style.

Adding to your excitement are some inner city living essentials that include secure basement car park, bike racks and storage cage.

Type : Apartment
