Start Spreading The News...You can be the host of Christmas lunch, in your own very private courtyard and the cheering just won't stop when you show your guests through your jazzy apartment that has way more than most.

The look is so in, beginning with polished concrete floors that complement the open plan living area that favorably leads outdoors, a creative and well planned kitchen allows you to fine dine in style, while the bathroom lets you wind down in your own bath tub. More instant attractions are its standout rear position that offers a perfect feeling that no one is watching, your own private entrance and the convenience of having your own laundry facilities.

Saying you live at 1 Collins St could sound a bit swish, but Thornbury Collins St gives you what you want, when you want and how you want it, being just steps away from the ever changing and convenient High St Thornbury.
