Fashionable Flair In A Terrific Thornbury Address...

Advantaged for being positioned on the ground floor at the rear because it only shares one wall and is at the end of the walkway where it can even offer some sense of outdoor, is this sleek pad that really offers just that little bit more, on this well managed and enthusiastic group of only 12.

Its hard to find layout pleasingly separates the bedroom from the bathroom that also can be closed off from its generous sized open plan living area that is overlooked by a well designed kitchen that can comfortably let you roll your dough out with its ample bench space. Further features to highlight are its elevated king size bedroom, the bathroom has a bath tub and laundry facilities, its exposed concrete floors are just so cool and if u have a car it's going to be sheltered as it also has got a carport.
