### This Is Where Beginning's Start...

Instantly representing house like first impressions, is this big-hearted street facing 80's villa unit, which showcases its unique points of differences, a wide garden frontage and exclusive driveway.

Beyond its retro facade, its interior has been polished in a non-pretentious manner that can simply allow its new owners to move straight in and ponder your own improvements when time permits. Its spacious & light filled layout now offers a welcoming entrance hallway that leads you through to zoned living and dining areas, updated kitchen, 2 robed bedrooms, likeable bathroom, separate toilet, functional laundry and a private courtyard which offers direct access into the big garage.

Enjoy the opportunity of entry into this nice street where it's location gets you connected with the areas attractions very easily being the famous Preston Market, evolving High Street, the biggest Northern Melbourne Institute of TAFE
