Your first impression of 6 Kemp Street is oh how grand the historic period home is at the front, but the hidden secret is apartment 10, around the back on the top floor of this sweet block of only 6, where no one needs to pass your door. It also showcases a lovely leafy outlook throughout the open plan living area which is overseen by the neat kitchen and has the right spaces for a couch & dining table and flows perfectly outdoors. A spacious bedroom retreat also enjoys total privacy, has good robe storage and leads into the ensuite bathroom.

You will also love the community vibe of this
